Shanghai Hudec News

Exhibition, workshop and Hudec objects

The famous Hungarian architect of the city, **László Hudec**'s name has the same reputation as it used to have when he built the first skyscraper of Asia, in 1934, the Park Hotel. The great possibility is open for the citizens to visit for free the **exhibition of Shanghai History Museum** and have a closer view of the **Budapest based** Hudec Cultural Foundation's **archive materials**. His baby and family photos, the documents of his education in the Technical University of Budapest, photos of his military service and his prisoner life in the WWI, unique objects of his life and his architecture of Shanghai are exposed for the first time in Shanghai. The **Hudec Magic Wall** display gives the opportunity to browse and interact with 100's of digitized items selected from the Foundation's archives. The exhibition, "Stereoscopic Notes · Urban Landscape—László Hudec and Modern Shanghai" is on show since 2nd of February and **open until 1st of May**.

The international **Hudec Media Workshop** program will be held in Shanghai on **20-24 March** in cooperation with the **School of Design, East China Normal University** Shanghai, the **Hudec Cultural Foundation** and **Panasonic**. The aim of the program is to make contemporary documentation of several Hudec buildings through the eyes of young designers and bring their fresh impressions to the Budapest public. The workshop results are going to be exhibited in May, in Budapest, in the **FUGA** gallery, a frequented culture location of **Budapest**.

Workshop partners and supporters: *East China Normal University (ECNU), Panasonic*

Budapest exhibition partner: *Fuga - Budapesti Center for Architecture*

Budapest exhibition supporter: *National Cultural Fund of Hungary*

The Hudec Cultural Foundation is happy to announce that a selection of **22 original Hudec objects** are going to be donated to the Shanghai History Museum on **25th of March**. The ceremony will be a joint event of the current exhibition, "Stereoscopic Notes · Urban Landscape—László Hudec and Modern Shanghai". Thanks to the generous donation of the Hudec family members in Canada (Theo Hudec's family), in USA (Martin Hudec's and Alessa Hudec's family) and in Budapest, Hungary (Hudec's niece, Eszter Jánossy) the **first Hudec archives** will be established in Shanghai.
